

**M-7045-G**

**M-7045D-G**

## **M-7045/M-7045D** 16-channel Isolated Digital Output Module

### Digital Output

- Channels: 16
- LED indicated (for M-7045D only)
- External Voltage: 10 to 40V max.
- Output current: 650mA per channel
- Isolation Voltage: 3750V
- Direct drive power relay module
- Short circuit protection

### Communication Interface

- RS-485

### Power Supply

- Input Voltage Range: +10 to +30 Vdc
- Consumption:  
0.6W for M-7045  
1.5W for M-7045D

### Ordering Information

<b>M-7045</b>	16-channel Isolated Digital Output Module
<b>M-7045D</b>	16-channel Isolated Digital Output Module with LED display

### Suggested Accessory

<b>I-7520</b>	I-7520 series converter for configuration or connection to PC
